

5-DIAMOND PATIENT SAFETY PROGRAM

MISSED TREATMENT MODULE – TRACKING LOG FOR MISSED TREATMENTS

In order to achieve diamond status for the Missed Treatments module, each facility must:

- In-service 100% of the facility staff on Missed Treatments
- Decrease the total number of missed treatments in the facility by $\geq 10\%$
- Sustain the $\geq 10\%$ decrease for at least three (3) months

Please list the TOTAL NUMBER OF EACH TYPE OF MISSED TREATMENT for the entire month. The TOTAL NUMBER is computed by counting each individual missed treatment per patient – NOT just by counting the patients. (i.e. Patient A was hospitalized and missed a week of treatments... normally dialyzes 3 times a week, therefore, Patient A missed 3 treatments)

Missed Treatment Log		
Facility Name:		
Provider #:		
Month Reporting:		
Treatments Missed Due to Hospitalizations	Treatments Missed due to No Show Excused	Treatments Missed due to No Show Un-Excused
